

INDEX METHODOLOGY

OMX STOCKHOLM 30 ESG RESPONSIBLE™ INDEX

OMXS30ESG™

INDEX DESCRIPTION

The OMX Stockholm 30 ESG Responsible Index is designed to track the performance of the securities in the OMX Stockholm 30® Index (OMXS30®) whose issuers meet specific ESG criteria.

SECURITY ELIGIBILITY CRITERIA

To qualify for index inclusion, securities must meet the following Security Eligibility Criteria, which are applied as of the Reconstitution reference date, unless otherwise stated.

Security universe

A security must be included in the OMX Stockholm 30® Index (OMXS30®) or the OMX Stockholm 30 Next™ Index (OMXS30NEXT™) as of the Reconstitution effective date. Please refer to their methodologies for further information on their constituent selection.

ESG eligibility

A security's issuer must not be positively identified by Sustainalytics as exhibiting any of the following characteristics:

- Non-compliance with the United Nations Global Compact (UNGC) principles and related international norms and standards, such as the Organization for Economic Cooperation and Development (OECD) Guidelines and United Nations (UN) Guiding Principles.
- Having a Controversy Rating of five (5).
- Involvement in specific business activities, as defined in Appendix A.

If data from Sustainalytics is unavailable for a given security's issuer, the issuer is deemed ineligible for index inclusion.

Other eligibility criteria

Companies that have filed for bankruptcy, or equivalent protection from creditors, will not be considered for initial inclusion in the Index.

A company that has entered into a definitive agreement or other arrangement that is expected to make it ineligible will not be considered for initial inclusion in the Index. Such agreements and arrangements include, but are not limited to:

- An agreement to be purchased by another entity or to become privately owned.
- A plan to delist or to transfer to an ineligible exchange.
- A plan to reorganize as an ineligible security type.
- A decision to liquidate or otherwise permanently cease operations.

Generally, a security already in the Index as of the Reconstitution reference date that will become ineligible soon after the Reconstitution effective date or a security not already in the Index as of the Reconstitution reference date would be removed from consideration.

CONSTITUENT SELECTION

Constituent selection process

An Index Reconstitution is conducted semiannually based on the Reconstitution reference date.

All securities from the OMX Stockholm 30[®] Index that meet the *Security Eligibility Criteria* are selected for inclusion in the Index.

In the event that fewer than 25 securities are selected, the remaining positions will be filled by securities from the OMX Stockholm 30 Next Index that meet the *Security Eligibility Criteria*, in rank order by highest free float market capitalization, until the total number of securities selected is 25.

CONSTITUENT WEIGHTING

Constituent weighting scheme

The Index is a modified free float market capitalization-weighted index.

Constituent weighting process

An Index Rebalance is conducted semiannually based on the Rebalance reference date.

Index Securities' initial index weights are determined by dividing each Index Security's free float market capitalization by the aggregate free float market capitalization of all Index Securities.

Initial weights are then adjusted to the following constraint:

- No Index Security may exceed 15%.

The capping of individual security weights is applied only in conjunction with the semiannual Reconstitution and Rebalancing of the Index. Because the Index Shares are fixed in advance of the effective date, the weights of some securities may exceed the 15% cap on the effective date, or at other times between scheduled Index Reconstitutions.

For additional information about index weighting, refer to the **Nasdaq Index Weight Calculations**.

INDEX CALENDAR

The Index follows the same reconstitution and rebalance schedule as OMXS30® and OMXS30NEXT. Refer to those methodologies for further information.

Holiday schedule

The Indexes are calculated Monday through Friday, except on days when the Nasdaq Stockholm AB is closed.

Index calculation and dissemination schedule

The Index is calculated during the trading day and is disseminated once per second from 09:00:10 to 17:35:00 local time (Central European Time or Central European Summer Time, dependent on the month of the year).

INDEX MAINTENANCE

Deletion policy

If, at any time other than an Index Reconstitution, Nasdaq becomes aware that an Index Security has become ineligible for continued inclusion, it is removed from the Index as soon as practicable and are not replaced. This includes events such as filing bankruptcy or similar protection from creditors, delisting or other arrangement including mergers and acquisitions. Refer to the **Corporate Actions and Events Manual – Nordics, Baltics, & Equities** for further information.

Corporate actions

Information on corporate actions and events handling can be found in the **Corporate Actions and Events Manual - Nordics, Baltics, & SmartBeta Equities**.

In certain cases, corporate actions and events are handled according to the weighting scheme or other index construction techniques employed. Wherever alternate methods are described, the Index will follow the "Market Cap Corporate Action Method" for Indexes that Review Index Shares on a Periodic Basis."

Free Float

The Index utilizes the *Alternate Float method*. Please refer to *Appendix A: Glossary of Key Terms* in the **Nasdaq Index Methodology Guide** for details on Nasdaq's free float methods

ADDITIONAL INFORMATION

Announcements

Nasdaq announces Index-related information via the Nasdaq Global Index Watch (GIW) website at <http://indexes.nasdaq.com>.

For more information on the general Index Announcement procedures, refer to the **Nasdaq Index Methodology Guide**.

Unexpected market closures

For information on Unexpected Market Closures, refer to the **Nasdaq Index Methodology Guide**.

Calculation types

For information on the Index calculation types as well as the mathematical approach used to calculate the Index(es), refer to the **Calculation Manual – Equities and Commodities**.

Recalculation and restatement policy

For information on the Recalculation and Restatement Policy, refer to the **Nasdaq Index Recalculation Policy**.

Data sources

For information on data sources, refer to the **Nasdaq Index Methodology Guide**.

Contact information

For any questions regarding an Index, contact the Nasdaq Index Client Services team at indexservices@nasdaq.com.

Index dissemination

Index values and weightings information are available through Nasdaq Global Index Watch (GIW) website at <https://indexes.nasdaq.com/> as well as the Nasdaq Global Index FlexFile Delivery Service (GIFFD) and Global Index Dissemination Services (GIDS). Similar to the GIDS offerings, Genium Consolidated Feed (GCF) provides real-time Index values and weightings for the Nordic Indexes.

For more detailed information regarding Index Dissemination, refer to the **Nasdaq Index Methodology Guide**.

Website

For further information, refer to Nasdaq GIW website at <https://indexes.nasdaq.com/>.

FTP and dissemination service

Index values and weightings are available via FTP on the Nasdaq Global Indexes FlexFile Delivery Service (GIFFD). Index values are available via Nasdaq's Global Index Dissemination Services (GIDS).

Withholding Tax Rates

A 30% Withholding Tax Rate will be applied in the Net Return Index version.

GOVERNANCE

All Nasdaq Indexes are managed by the governance committee structure and have transparent governance, oversight, and accountability procedures for the index determination process. For further details on the Index Methodology and Governance overlay, refer to the **Nasdaq Index Methodology Guide**.

GLOSSARY OF TERMS AS USED IN THIS DOCUMENT

For the glossary of key terms, refer to the **Nasdaq Index Methodology Guide**.

APPENDIX A: PROHIBITED AREAS OF INVOLVEMENT

At each semiannual Index Reconstitution, companies engaged in the following business activities, as determined by Sustainalytics, are excluded from the eligible universe.

Category of Involvement	Description	Acceptable Involvement Range
Adult Entertainment: Distribution	The company is involved in the distribution of adult entertainment materials.	<5% of revenues
Adult Entertainment: Production	The company is involved in the production of adult entertainment and/or owns/operates adult entertainment establishments.	No involvement

Cannabis: Production (Recreational Cannabis)	The company is involved in the development and/or cultivation of cannabis for recreational purposes.	<5% of revenues
Cannabis: Retail (Recreational Cannabis)	The company derives revenues from the distribution and/or retail sale of cannabis for recreational purposes.	<5% of revenues
Controversial Weapons	The company is involved in one or more of the following categories of Controversial Weapons: - Anti-Personnel Mines - Biological and Chemical Weapons - Cluster Weapons - Depleted Uranium - Nuclear Weapons - White Phosphorus	No involvement
Gambling: Operations	The company owns and/or operates a gambling establishment.	<5% of revenues
Gambling: Specialized Equipment	The company manufactures specialized equipment used exclusively for gambling.	<5% of revenues
Gambling: Supporting Products/ Services	The company provides supporting products/services to gambling operations.	<50% of revenues

Category of Involvement	Description	Acceptable Involvement Range
Military Contracting: Weapon related products and/or services	The company provides tailor-made products and/or services that support military weapons.	<50% of revenues
Military Contracting: Weapons	The company manufactures military weapon systems and/or integral, tailor-made components or these weapons.	<5% of revenues
Oil & Gas: Generation	The company generates electricity from oil and/or gas.	<5% of revenues
Oil & Gas: Production	The company is involved in oil and gas exploration, production, refining, transportation and/or storage. Subcategories: - Exploration and Production - Refining - Transportation - Storage	<5% of revenues
Oil & Gas: Supporting Products/ Services	The company provides tailor-made products and services that support oil and gas exploration, production, refining, transportation and storage.	<50% of revenues
Oil Sands: Extraction	The company extracts oil sands.	No involvement
Small Arms: Civilian customers (Assault weapons)	The company manufactures and sells assault weapons to civilian customers.	No involvement
Small Arms: Civilian customers (Non-assault weapons)	The company manufactures and sells small arms (non-assault weapons) to civilian customers.	No involvement
Small Arms: Key components	The company manufactures and sells key components of small arms.	0% of revenues
Small Arms: Retail/ Distribution (assault weapons)	The company is involved in the retail and/or distribution of assault weapons.	<5% of revenues
Small Arms: Retail/distribution (Non-assault weapons)	The company is involved in the retail and/or distribution of small arms (non- assault weapons).	<5% of revenues
Thermal Coal: Extraction	The company extracts thermal coal.	<1% of aggregated revenues
Thermal Coal: Supporting Products/Services	The company provides tailor-made products and services that support thermal coal extraction.	

Category of Involvement	Description	Acceptable Involvement Range
Thermal Coal: Power Generation	The company generates electricity from thermal coal.	<5% of revenues
Tobacco Products: Production	The company manufactures tobacco products.	No involvement
Tobacco Products: Related Products/ Services	The company supplies tobacco-related products/services.	<5% of revenues
Tobacco Products: Retail	The company derives revenues from the distribution and/or retail sale of tobacco products.	<5% of revenues

APPENDIX B: METHODOLOGY CHANGE LOG

Effective Date	Methodology Section	Previous	Updated
6/1/2026	Index description	“Institutional Shareholder Services, Inc. (ISS ESG) is responsible for the Environmental, Social and Governance (ESG) screening of securities to the extent set out in the Security Eligibility Criteria.”	--
6/1/2026	Security eligibility criteria: ESG eligibility	ISS ESG performs an ESG screening, and companies with the following characteristics are excluded: - Do not meet the inclusion criteria set forth by ISS ESG’s ESMA Fund Name Guidelines Solution. - Verified and ongoing breaches of international norms. - Verified and ongoing involvement in cluster munitions, anti-personnel mines, nuclear weapons, biological and chemical weapons. - Involvement of a certain degree in alcohol, tobacco, military equipment, pornography, gambling, fossil fuel, cannabis, and oil sands (Sector screening): - Alcohol: 50% or more revenue from services or more than 5% of revenue from production/distribution. - Tobacco: 50% or more revenue from services, more than 5% of	A security’s issuer must not be positively identified by Sustainalytics as exhibiting any of the following characteristics: - Non-compliance with the United Nations Global Compact (UNGC) principles and related international norms and standards, such as the Organization for Economic Cooperation and Development (OECD) Guidelines and United Nations (UN) Guiding Principles. - Having a Controversy Rating of five (5). - Involvement in specific business activities, as defined in Appendix A. If data from Sustainalytics is unavailable for a given security’s issuer, the issuer is deemed ineligible for index inclusion.

Effective Date	Methodology Section	Previous	Updated
		revenue from distribution or any revenue derived from production. ○ Military Equipment: 50% or more revenue from services or more than 5% of revenue from production/distribution. ○ Pornography: 5% or more revenue from distribution/services or any revenue derived from production. ○ Gambling: 50% or more revenue from services or more than 5% of revenue from production/distribution. ○ Fossil Fuel: 50% or more revenue from services or more than 5% of revenue from production/distribution. ○ Cannabis: 50% or more revenue from services or more than 5% of revenue from production/distribution. ○ Oil Sands: Any revenue from production/extraction/exploration. If ISS ESG has unavailable data for any of the above ESG criteria, the company will still be eligible for index inclusion, unless the unavailable data pertains to the inclusion criteria set forth by ISS ESG's ESMA Fund Name Guidelines Solution, in which case the company will be ineligible.	
6/1/2026	Appendix A: Prohibited areas of involvement	--	At each semiannual Index Reconstitution, companies engaged in the following business activities, as determined by Sustainalytics, are excluded from the eligible universe. <i>Each business activity below is presented as: Category of Involvement — Acceptable Involvement Range.</i> • Adult Entertainment: Distribution — <5% of revenues • Adult Entertainment: Production — No involvement

Effective Date	Methodology Section	Previous	Updated
			• Alcoholic Beverages: Production — <5% of revenues • Alcoholic Beverages: Related Products/Services — <50% of revenues • Alcoholic Beverages: Retail — <5% of revenues • Arctic Oil & Gas Exploration: Extraction — <10% of revenues • Cannabis: Production (Recreational Cannabis) — <5% of revenues • Cannabis: Retail (Recreational Cannabis) — <5% of revenues • Controversial Weapons — No involvement • Gambling: Operations — <5% of revenues • Gambling: Specialized Equipment — <5% of revenues • Gambling: Supporting Products/Services — <50% of revenues • Military Contracting: Weapon Related Products and/or Services — <50% of revenues • Military Contracting: Weapons — <5% of revenues • Oil & Gas: Generation — <5% of revenues • Oil & Gas: Production — <5% of revenues • Oil & Gas: Supporting Products/Services — <50% of revenues • Oil Sands: Extraction — No involvement • Small Arms: Civilian Customers (Assault Weapons) — No involvement • Small Arms: Civilian Customers (Non-Assault Weapons) — No involvement • Small Arms: Key Components — 0% of revenues • Small Arms: Retail/Distribution (Assault Weapons) — <5% of revenues • Small Arms: Retail/Distribution (Non-Assault Weapons) — <5% of revenues • Thermal Coal: Extraction and Thermal Coal: Supporting Products/Services — <1% of aggregated revenues

Effective Date	Methodology Section	Previous	Updated
			• Thermal Coal: Power Generation — <5% of revenues • Tobacco Products: Production — No involvement • Tobacco Products: Related Products/Services — <5% of revenues • Tobacco Products: Retail — <5% of revenues.
7/1/2025	Constituent selection: Constituent selection process	A Reconstitution is conducted on a semi-annual basis, at which time all eligible securities from the OMX Stockholm 30® Index that meet the Security Eligibility Criteria are selected for inclusion in the Index. In the event that fewer than 25 securities are selected, the remaining positions will be filled by securities from the OMX Stockholm 30 Next Index that meet the Security Eligibility Criteria, in rank order by highest Nasdaq official aggregate turnover in Swedish Krona (SEK) during the six (6) calendar months starting six (6) calendar months prior to the Index Reconstitution Reference Date until the total number of securities selected is 25.	An Index Reconstitution is conducted semiannually based on the Reconstitution reference date. All securities from the OMX Stockholm 30® Index that meet the Security Eligibility Criteria are selected for inclusion in the Index. In the event that fewer than 25 securities are selected, the remaining positions will be filled by securities from the OMX Stockholm 30 Next Index that meet the Security Eligibility Criteria, in rank order by highest free float market capitalization, until the total number of securities selected is 25.
7/1/2025	Constituent weighting: Constituent weighting scheme	The Index is a market capitalization-weighted index.	The Index is a modified free float market capitalization-weighted index.
7/1/2025	Constituent weighting: Constituent weighting process	Index Securities' index weights are determined by dividing each Index Security's market capitalization by the aggregate market capitalization of all Index Securities.	Index Securities' initial index weights are determined by dividing each Index Security's free float market capitalization by the aggregate free float market capitalization of all Index Securities. Initial weights are then adjusted to the following constraint: • No Index Security may exceed 15%. The capping of individual security weights is applied only in conjunction with the semiannual Reconstitution and Rebalancing of the Index. Because the Index Shares are fixed in advance of the effective date, the weights of some

Effective Date	Methodology Section	Previous	Updated
			securities may exceed the 15% cap on the effective date, or at other times between scheduled Index Reconstitutions.
7/1/2025	Index maintenance: Free float	--	The Index utilizes the <i>Alternate Float method</i> . Please refer to <i>Appendix A: Glossary of Key Terms</i> in the Nasdaq Index Methodology Guide for details on Nasdaq's free float methods.
5/12/2025	Security eligibility criteria: ESG eligibility	--	ISS ESG performs an ESG screening, and companies with the following characteristic are excluded: Do not meet the inclusion criteria set forth by ISS ESG's ESMA Fund Name Guidelines Solution. If ISS ESG has unavailable data pertaining to the inclusion criteria set forth by ISS ESG's ESMA Fund Name Guidelines Solution, the company will be ineligible for index inclusion.
7/15/2024	Index maintenance: Corporate action exceptions	In the "Adjustment for Issues - Basket Method and Fixed Price Method" section of the Corporate Actions and Events Manual—Nordics, Baltics, & SmartBeta Equities, the Basket method and the Fixed Price method use VWAP.	--
