

INDEX METHODOLOGY

NASDAQ GOLDEN DRAGON CHINA™ INDEX

HXC™

INDEX DESCRIPTION

The Nasdaq Golden Dragon China Index (the “Index”) is designed to provide insight and access to the unique economic opportunities taking place in China while still providing the transparency offered within US-listed securities.

SECURITY ELIGIBILITY CRITERIA

To qualify for index inclusion, securities must meet the following Security Eligibility Criteria, which are applied as of the Reconstitution Reference Date.

Security Types

A security must be classified as a common stock, ordinary share, American Depositary Receipt (ADR) or a share of beneficial interest or limited partnership interest.

If a security is a depositary receipt, references to the security’s “issuer” are references to the issuer of the underlying security, and references to the security’s total shares outstanding are references to the actual depositary shares outstanding as reported by the depositary banks.

Listing Exchanges

A security must be listed on a U.S. exchange as defined in the **Nasdaq Eligible Exchanges**.

Geographies and Countries

A security included in the Index as of May 31, 2012, has no geographic eligibility criterion. For any security not meeting that condition, the security’s issuer must be domiciled or incorporated in China (excluding Hong Kong and Taiwan).

Market Capitalization

A security must have a market capitalization of at least \$100 million (USD).

Liquidity

A security must have a three-month average daily value traded (ADVT) of at least \$250 thousand (USD).

Industries and Sectors

A security must not be allocated by the Industry Classification Benchmark (ICB) to the Open End and Miscellaneous Investment Vehicles sector. ICB is a product of FTSE International Limited that is used under license.

Seasoning

A security must have been traded for at least three months prior to the Reconstitution Reference Date.

Other Eligibility Criteria

If, at index reconstitution, Nasdaq becomes aware that an issuer or security will soon undergo a fundamental change that makes it ineligible, Nasdaq will remove the security from consideration. This includes entering into a definitive merger or acquisition agreement or other pending arrangement that would make it ineligible for index inclusion, a filing of bankruptcy or similar protection from creditors, or other events as described in Section 3 of **Corporate Actions and Events Manual – Equities**.

CONSTITUENT SELECTION

Constituent Selection Process

An index reconstitution is conducted quarterly based on the Reconstitution Reference Date.

Securities that meet the applicable *Security Eligibility Criteria* are included in the Index.

CONSTITUENT WEIGHTING

Constituent Weighting Scheme

The Index is a modified market capitalization-weighted index.

Constituent Weighting Process

An index rebalance is conducted quarterly based on the Rebalance Reference Date.

The Index employs a two-stage weight adjustment scheme.

Each Index Security's initial weight is determined by dividing its market capitalization by the aggregate market capitalization of all Index Securities. Weights are adjusted in two stages.

Stage 1: Initial index weights are adjusted to meet the following Stage 1 constraint, producing the Stage 1 weights:

- No Index Security weight may exceed 8%.

Stage 2: Stage 1 weights are adjusted to meet the following Stage 2 constraints, producing the final weights:

- For Index Securities with the five largest market capitalizations, Stage 1 weights are maintained.
- For all other Index Securities, no weight may exceed 4%.

The final weights meet the following constraints:

- No Index Security weight may exceed 8% of the index; five may exceed 4%.

For additional information about security weighting, see **Nasdaq Index Weight Calculations**.

INDEX MAINTENANCE

Deletion Policy

If, at any time other than an index reconstitution, Nasdaq becomes aware that an Index Security has become ineligible for continued inclusion, it is removed from the Index as soon as practicable. This includes events such as filing bankruptcy or similar protection from creditors, delisting or other arrangement including mergers and acquisitions. Refer to **Corporate Actions and Events Manual – Equities** for further information.

Replacement Policy

Index Securities are not replaced between index reconstitutions.

Addition Policy

Index Securities are not added between index reconstitutions.

Corporate Actions

Information on corporate actions and events handling can be found in **Corporate Actions and Events Manual – Equities**.

In certain cases, corporate actions and events are handled according to the weighting scheme or other index construction techniques employed. Wherever alternate methods are described, the Index will follow the “Market Cap Corporate Action Method.”

Index Share Adjustments

At each quarterly rebalancing, no changes are made to the Index from the previous month end until the Rebalance Effective Date, with the exception of corporate actions with an ex-date.

For handling of changes in Total Shares Outstanding (TSO) greater than or equal to 10.0% arising from corporate events, please refer to **Corporate Actions and Events Manual – Equities**.
